

Goedegebuur Vlees Rotterdam B.V.
Att. Mr. van der Matten
Groothandelsmarkt 201
3044 HH Rotterdam
The Netherlands

Amersfoort, 29th April 2025

Reference: NL.9734012
Subject: statement certificate BRCGS Food Issue 9

Dear Mr. van der Matten,

Hereby, Bureau Veritas Inspection & Certification the Netherlands declares that Goedegebuur Vlees Rotterdam B.V. has an agreement with us for a recertification cycle against the BRCGS Food Issue 9 standard.

Currently no certificate has been issued for the location. The last audit took place on the 14th of February 2024. This situation that has arisen has no reason for Bureau Veritas not to have confidence in the process and the management system implemented at Goedegebuur Vlees Rotterdam B.V.

The next recertification audit will be performed on 21st and 22nd of July 2025. From BRCGS we received an approved concession for a late announced audit and we received an approved concession that the late audit will have no impact on the grading of Goedegebuur Vlees Rotterdam B.V.

Until the new certificate has been issued, this statement can be shown to clients and if necessary, we can provide further explanations to customers who wish to receive more information regarding this subject.

For further questions you can e-mail or call me using the information below. I hope to have informed you accordingly and remain at your disposal.

I hope to have informed you sufficiently and remain at your disposal.

Kind regards,

Wesley ter Smitte
